

Dart Canada Inc. Code of Conduct for Suppliers

I. Background

Dart Canada Inc. and our subsidiaries seek to observe the highest ethical standards in conducting business, including, at a minimum, observing all laws and regulations governing business transactions. The expectation we have set for ourselves is to treat people with respect, dignity, honesty, professionalism, and integrity.

We are a global leader in the manufacture of disposable foodservice products for the consumer/retail, foodservice, packaging and international markets. While not exhaustive, we developed this Code of Conduct for Suppliers to provide guidance on the expectations we have for our suppliers and their sub-contractors. In addition, these guidelines allow Dart to appropriately select new suppliers and locations for procurement, as well as to identify and resolve potential problems as they arise.

Given that we consider our suppliers to be our partners in success, we strive to select suppliers who have articulated a commitment to high ethical standards and conduct their operations in a manner that respects the rights of individuals they employ. Suppliers who fail to comply with this Code will not be approved as a qualified Dart Supplier and are subject to termination as a supplier to Dart.
